Summary

MERN Stack Developer with hands-on experience building full-stack web applications using React.js, Node.js, Express.js, MongoDB, PostgreSQL, Redux, JWT Authentication, and REST APIs. Skilled in developing responsive user interfaces, backend services, database design, and API integration. Bringing 5 years of prior experience as an iOS developer.

Skills

- Frontend** — HTML, CSS, JavaScript, React.js, Tailwind CSS
- Backend** — Node.js, Express.js
- Databases** — MongoDB, PostgreSQL
- State Management** — Redux
- Tools & Concepts** — REST APIs, JWT Authentication, Routing, Git, GitHub

Experiences

Full Stack Developer Intern , StackDot 02/2026 – Present | Ahmedabad

Purchase and Payment Management System (PPMS)

- Implemented the Purchase Request module for a Purchase and Payment Management System (PPMS) using React.js, Node.js, Express.js, PostgreSQL, and Prisma.
- Developed end-to-end functionality for request creation, editing, submission, approval workflow, and status tracking.
- Built RESTful APIs with JWT Authentication and Role-Based Access Control (RBAC) for secure access management.
- Integrated Axios, form validation, and responsive UI components to deliver a seamless user experience.

MERN Stack Developer Trainee, StackCode Training Institute 06/2025 – 01/2026

- Completed intensive training in Full-Stack Web Development using React.js, Node.js, Express.js, and MongoDB.
- Learned RESTful API development, authentication, database design, and modern frontend development practices.
- Built real-world projects and gained hands-on experience with Git, GitHub, debugging, and deployment workflows.

iOS Developer, Moon Technolabs, Etilox, AIS Technolabs, Webzlabz 07/2013 – 12/2018 | Ahmedabad

- Developed and maintained 5+ iOS applications using Swift and Objective-C, integrating REST APIs and enhancing performance, stability, and user experience.
- Worked closely with designers, QA, and backend teams to deliver new features, troubleshoot issues, and support production releases.

Projects

Bags E-Commerce

- Created a full-stack multi-vendor e-commerce platform using React.js, Node.js, Express.js, and MongoDB.
- Implemented User, Vendor, and Admin modules with features such as product management, wishlist, cart, orders, inventory tracking, and dashboard analytics.
- Designed responsive UI components and integrated RESTful APIs with JWT authentication and role-based access control for secure and seamless operations.

Book Publisher

- Created a full-stack SaaS-based Book Publisher Platform using React.js, Node.js, Express.js, and PostgreSQL.
- Built secure RESTful APIs with JWT authentication and Role-Based Access Control (RBAC) for Author, Vendor, User, and Admin roles.
- Delivered key functionalities including commission management, file uploads, book publishing workflows, and order tracking.
- Built responsive role-based dashboards and reusable React.js components with seamless API integration and state management.
- Optimized application performance through modular architecture, efficient database design, and robust error handling.

Education

MCA, Gujarat Vidyapith 08/2010 – 07/2013 | Ahmedabad
